

Developing a Logic Model for Healthy People 2030

Shiriki Kumanyika, PhD, MPH
HP 2020 SAC Vice-Chair
Member HP 2030 Priorities Subcommittee

Action Model to Achieve HP2020

Overarching Goals: Objectives

- Bring together HP 2020 components
 - Show need to address a broad array of nested health determinants
 - Life course perspective
 - Show the relationships among interventions, determinants of health, and outcomes
 - Action orientation to address user concerns that prior versions of Healthy People did not articulate, motivate, or inform specific actions to achieve objectives or meet targets.
-

- Adapted from commonly used ecological model as it appeared in an Institute of Medicine Report of 2002.

Action Model to Achieve Healthy People 2020 Goals

Healthy People 2020

A society in which all people live long, healthy lives

Overarching Goals:

- Attain high quality, longer lives free of preventable disease, disability, injury, and premature death.
- Achieve health equity, eliminate disparities, and improve the health of all groups
- Create social and physical environments that promote good health for all.
- Promote quality of life, healthy development and healthy behaviors across all life stages.

Determinants of Health

A video frame showing a circular diagram titled 'DETERMINANTS OF HEALTH'. The diagram is surrounded by a green banner at the top that reads 'A FRAMEWORK FOR REACHING HEALTHY PEOPLE 2020 GOALS'. The central circle is divided into several segments, each with an icon and a label: 'Biology & Genetics' (DNA helix), 'Individual Behavior' (person walking), 'Social Interactions' (group of people), 'Physical Environment' (house and trees), and 'Access to Health Services' (person at a desk). The video player interface at the bottom shows a progress bar at 0:42 / 4:54, a 360p resolution indicator, and standard playback controls.

A video frame showing a circular process diagram. At the center is a group of diverse people standing in a circle. Surrounding them is a large blue wavy arrow pointing to the right, labeled 'INTERVENTIONS'. This arrow is enclosed within a larger green oval frame. The top of the green frame is labeled 'ASSESS' and 'MONITOR', and the bottom is labeled 'DISSEMINATE' and 'EVALUATE'. The central area is labeled 'DETERMINANTS OF HEALTH'. The video player interface at the bottom shows a progress bar at 4:17 / 4:54, a 360p resolution indicator, and standard playback controls.

- Similarities or differences in thrust or innovation for 2030 vs. 2020
 - What, if anything should be carried forward from the 2020 model?
 - What is most important to convey for a HP2030 graphic?
 - Is there an existing resource to be adapted, as for 2020?
-
